Dear Friends:

March 1, 2021

Thank you for your past support, in whatever form, of the Friends of the Folsom Powerhouse Association.

Your support has made possible:

- Educational activities for thousands of local children
- Tours for thousands of the Visitors Center/Museum and the Upper and Lower Powerhouse – some from all around the globe
- The purchase, maintenance, and storage of a 1931 Model A truck, similar to the one used on the Powerhouse grounds back in the day (the truck is often used in parades)
- Maintenance and restoration of the facilities and grounds including replicating historic signage
- Legacy beautification and brick project
- Community events on our site such as these annual activities - Powerfest: Taps & Tunes (June), the Electricity and Science Fair (September), and the Annual Membership Meeting with featured speaker (February)
- Support of our many dedicated docents and California State Parks personnel
- ***Preserving the Folsom Historic Powerhouse as a community treasure representing significant contributions to the economic growth and development of the Sacramento region***

Our plans for 2021 and beyond include:

- Continuation of all of the activities listed above
- Replacing outdated and worn interpretative signage; adding new interpretative signage
- Collaborating with local Folsom commerce and other historic groups on activities to educate and engage the community in our collective histories
- Exploring collaboration on a living history day
- And more!
